Frontend: React.js, Next.js, Material UI, Tailwind CSS, Bootstrap, Basic React Native

Backend: Node.js, Express.js, REST API Architecture

Databases: MongoDB, MySQL

Cloud/Tools: Git, Vite, Google Cloud APIs, Docker (basic), CI/CD (GitHub Actions)

Other: Performance Optimization, Component-Driven Development

SOFT SKILLS

Collaboration

Problem-Solving

Adaptability

Communication

PROJECTS

Sattva Web Presence ([GitHub](#)) — React.js, Tailwind CSS, React Fonts

- Developed a responsive and modern corporate website for Sattva Group, enhancing user experience and accessibility.
- Optimized components for performance and scalability, resulting in faster load times and smoother navigation.
- Applied performance enhancements such as lazy loading and code-splitting, achieving a 95+ Lighthouse score.

Employee Management System ([GitHub](#)) — React, Tailwind CSS, JavaScript, Local Storage

- Designed and implemented a frontend employee management system with secure login and role-based access control.
- Built CRUD-like functionalities for employee records using Local Storage, enabling streamlined HR operations.
- Enhanced UI/UX with responsive React components, improving usability for both HR and employees.
- Implemented state management and form validation to ensure smooth and error-free interactions.
